Re: Hill V. O'Brian et al;
08 CV 00283

Dear judge Turk: I write to request an extension of time for the upcoming Trial set for July 7th.   I am currently confined to Ohio on another litigation out of West VA. Hill V. Haynes (N.D.W.VA.) 06-CV-136.

    I was only allowed to bring my legal materials "relevent" to my W.VA. litigation (see, order to transport by judge Kaul).

    So I will have to request that USP Lewisberg be directed (ordered) to send all my in-cell legal materials to me here at this facility. So that I can obtain the necessary documents for this litigation, including witnesses names, and exhibits.

1

I was un-aware the court would order trial, while I was on-writ on another matter and anyway, I was only allowed to take W. Va. legal materials.

Also, Arlene Sokolowski-Craft has agreed to represent me in this matter pro Bono. And I need an opportunity to familiarize her with the "facts" of each claim for the remaining defendants. And provide her with copies of the materials I have in support, as well as witness names.

And the U.S. Attorneys office has denied several discovery request and I will ask Mrs. Craft to do a motion to compel.

I would ask the court for 90 days from when Lewisberg sends my in-cell legal materials — and would ask the court issue a letter to lewisberg, so they can send my in-cell legal materials expeditiously.

2

~~I~~ Thank the court for
its time and consideration in this matter.

Respectfully

Demetrius Hill
